

Advanced Partial Differential Equations Exams

This is a small collection of some of the past exams for the Advanced Partial Differential Equations course at Politecnico di Milano. I compiled this document to help other students prepare for the exam. I do not guarantee the correctness of the solutions, some are mine, some are my friends' and some are from the files available on the AIM website. If you find any mistakes, please let me know or correct them yourself. The source code for this document can be found on GitHub (sorry in advance for my terrible LaTeX code).
